

PS Financials
Powering Better Business Decisions

Reduce costs, ensure business
continuity & data security with

PSF CLOUD

PS Financials provide a secure and high availability private cloud service – ‘PSF CLOUD’, hosted from a Tier 3 and ISO 27001 resilient UK data centre. The PSF CLOUD service is cost effective, removing the large, upfront capital investments associated with setting up and maintaining a resilient and effective IT infrastructure.

Stability

Since its introduction, PSF Cloud has provided 100% scheduled uptime, avoiding any frustrating drops in service, allowing our users to have full access to PS Financials, from anywhere 365 days 24 x 7.

Expertise

Support is maximised as we are able to support your PS Financials applications more effectively and proactively manage the IT infrastructure.

Security

The PSF Cloud is located in England in a highly resilient, ISO 27001, Tier 3 security compliant data centre. Your PSF data is automatically backed up to two secure and independent locations ensuring complete business continuity in the event of disaster.

Cost Effective

By implementing PSF Cloud you have no capital expenditure on expensive Servers, MS Office, MS SQL Server licenses or staff costs. You benefit from low, defined running costs that are paid quarterly.

2000+

PS Financials users have PSF CLOUD
as their Platform as a Service (PaaS) solution

Business Continuity

PSF CLOUD uses a UK based Tier 3, ISO 27001 certified data centre, maximising the security of the data stored. Round the clock monitoring and automatic data backups across two UK based locations removes fears of data loss and ensures business continuity.
