

**PS Financials**  
Powering Better Business Decisions

## SmartView

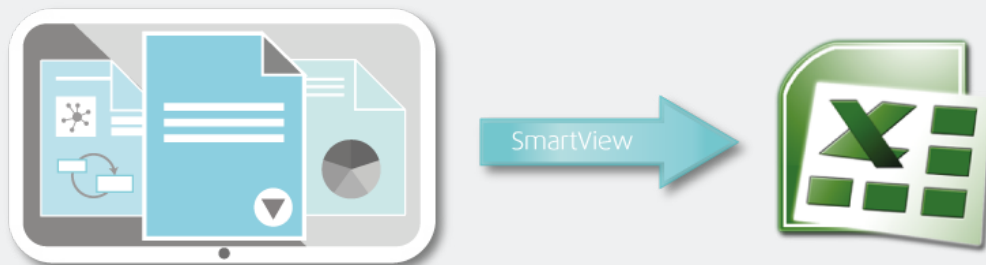

## Advanced Financial Analysis

SmartView enables finance professionals to produce high quality, real time management reports, forecasts and financial statements, formatted to your specific requirements, directly from Microsoft Excel®.

By simply extending Excel® with PS Financials' functions, that are simple to use and quick to learn, PSF SmartView empowers you to build dynamic spreadsheets that are always up-to-date and ready to run.

PSF SmartView removes the need for in-depth knowledge of the PSF database schemas or to perform regular bulk data extracts. It allows you to focus on the important aspects of financial reporting including data analysis, presentation, formatting and delivery.

### PSF SmartView Advanced Features

- ▶ Income, expense and balance sheet reporting
- ▶ Intuitive reporting functions
- ▶ Real time data refreshing
- ▶ Full drill down
- ▶ Automated spreadsheet execution and distribution
- ▶ Multi-currency consolidation
- ▶ Pivot table integration

### PSF SmartView Key Benefits

- ▶ Save time and money every month
- ▶ Create dynamic reusable templates
- ▶ Format your data how you want to see it
- ▶ Add your identity with images and branding
- ▶ Create reusable templates
- ▶ Identify reporting errors quickly
- ▶ Get started with minimal training
- ▶ It's just Excel®.
